## RIBBIT RESOURCE - Top Builder to Pay for Condo Defects

Recently noted in Durability and Design, America's largest homebuilder has to pay up to \$9.6 million to remove and replace defective stucco, roofs and windows in a 240 unit complex. This is considered a landmark case to hold builder/developers to be more accountable. The article notes, "each of the defects were either known to exist by defendant during the course of construction..."

VaproShield offers a host of cost effective rain screen design solutions for stucco.
